MINDBODY Included in 2012 Technology 200 List

San Luis Obispo, CA – November 27, 2012 – MINDBODY, the largest global provider of [online business management software](#) to the beauty, health and wellness industry, has been named to Lead411's Technology 200, a list of the fastest-growing US-based technology companies determined by highest percentage of revenue growth from 2009 to 2011. MINDBODY ranks #74 with a 3 year revenue growth of 148%.

"Our team is delighted to be recognized by Lead411 as a leading U.S.-based technology company," said Rick Stollmeyer, MINDBODY's co-founder and CEO. "Our growth reflects the increasing demand for a comprehensive web-based business management solution. We're excited to be the industry's leading provider of this solution and we remain committed in our efforts to connect businesses with their local communities and improve wellness on a global scale."

In its third year, the Tech 200 list calculates revenue growth by percentages vs. dollar growth. Finalists reflect a diverse range of industries including Software, Hardware, Media, Wireless and Consulting. Applicants were required to be privately held, U.S.-based companies with at least \$1 million in revenue in 2011.

MINDBODY's online business management software helps local businesses manage all aspects of their operations within a single system, from web scheduling and staff management, to point of sale and payment processing, to automated marketing and eCommerce. The company's platform is accessible at all times to both business owners and
